# A Man is Known by the Company he Keeps But he is Judged by the Clothes he Wears

¶ The prosperous looking man is the man who gets the attention, is the man who will succeed when the man with even more brains, but not so good clothes, will fail.

¶ You owe it to yourself, to your friends, to wear just as good clothes as you can afford. And when you buy your clothes here, you can afford more clothes and better clothes, because you can buy them here for less money than in many other places.

¶ It is not our guarantee that makes clothes good, but it's the quality of the clothes that makes the guarantee possible.

# Introductory

---

**T**HE PUBLISHERS take pleasure in presenting herewith the Eighth Edition of Henderson's Brandon City Directory.

Possibly no other publication can convey such an idea of the city, its business interests and all the various institutions and organizations.

The Advertising Department presents the names of corporations, firms and individuals who are a power in the financial, industrial and commercial world of Western Canada.

The Miscellaneous Section in the front part of the volume, containing up-to-date statistics and information, much of which is not to be found elsewhere in print.

The Classified Directory contains a complete alphabetically arranged list of all articles manufactured and sold in Brandon, which forms a most efficient wholesale and retail buyer's guide.

The Publishers desire to thank their patrons and the general public for the courtesy extended, at all times, to their representatives, and to say that they fully appreciate the confidence which the business and professional men of Brandon have always shown in their publications.

### CITY WATERWORKS

The waterworks pumping station is situated at the corner of 26th Street and Macdonald Avenue and north of the C. P. R. track. It is  $1\frac{1}{4}$  miles west from the City Hall.

Superintendent and Chief Engineer—A. W. Shaw

Assistant Engineers—John W. Anderson, Thomas D. Berry

The supply is taken from the Assiniboine River with a 40-inch intake to the pumping station which is 1,000 feet south of the river. The system is what is known as direct pumping, there being no reservoir or stand pipe. The plant consists of one two million gallon D'Auria high duty pump, one 3,000,000 gallon D'Auria horizontal high duty pump and two 1,200,000 gallon Worthington pumps, eight 500,000 gallon pressure filters, operated by four 75 horsepower boilers and one 1,200,000 steam turbine centrifugal pump and two 150 horsepower automatic chain grate stokers.

The engine room is 36x44 feet, two filter rooms, one 36x44 feet and one 33x60 feet, and the boiler room 30x44 feet. Addition to boiler room 46x82 feet, 600 horsepower boilers. There are 1,800 domestic services, of which 500 are on meter and 130 fire hydrants. A domestic pressure is maintained at 85 pounds, while for fire purposes the pressure is raised to 140 pounds at the station. The total capacity of the pumping plant is  $3\frac{1}{2}$  million gallons for 24 hours.

### PUBLIC WORKS AND IMPROVEMENTS

The city has 35 miles of water mains, 34.70 miles of sewers, 54.36 miles of granolithic sidewalks, 28 miles of graded streets, and  $6\frac{1}{4}$  miles of paved streets, 16 miles of boulevards and 182 fire hydrants. Permanent steel and concrete bridges are constructed over the river at First and Eighteenth Streets.

Brandon, lat. 49.51, lon. 99.57; elevation at City Hall 1255 feet above mean sea level.

## STREET LIGHTING SYSTEM

Standard lighting system with 56 ornamental combination standards, 244 five-light ornamental standards, 58 four-light combination standards, 23 arc lamps, 187 single lights, 30 ornamental single light-brackets.

## SYSTEM OF NUMBERING HOUSES

The system of house numbering adopted by the city of Brandon is the Philadelphia or Decimal system. By this system an even hundred numbers are allotted to each block and the principal advantage of the system is that the number indicates how many blocks distant it is from any given point on the street or avenue.

On avenues which run east and west a number is allotted to every twelve feet, and on streets which run north and south a number is allotted to every fifteen feet.

Odd numbers are located on the east and north sides, and even numbers on the south and west sides.

The affix "east" is used to indicate avenues that number eastward from First Street and the affix "north" is used to indicate streets that number northward from Pacific Avenue.

Pacific Avenue is taken as the basis for all streets running south starting at number 1 and going southward 100 to the block to the southern limits of the city.

Assiniboine Avenue is the basis for all streets running northward starting at number 1 going northward 100 to block to the northern limits of the city.

## TRANSPORTATION FACILITIES

The city is connected by four great trunk lines, viz.; the Canadian Pacific, Canadian National, Great Northern and the Grand Trunk Pacific Railways. The construction of the Hudson's Bay Railway will assist in making Brandon the distributing point for all the produce of western and southern Manitoba, together with the eastern portion of Saskatchewan for the world's nearest market.

Brandon is the second divisional point on the C. P. R. system west of the Manitoba boundary in the very heart of the Province.

The Canadian Northern Railway Company's new main line from Port Arthur to Regina gives Brandon a fast through passenger service. This Company realizes that Brandon is one of its most important divisions.

The Great Northern terminal from St. Paul is located in the business centre of the city. Its handsome passenger depot facing and extending across Twelfth Street close to Rosser Avenue, substantial brick freight sheds and offices have been erected by the Company adjacent to its passenger depot. The Company finds it necessary to make still further provision for the increasing traffic. An extension of this company's lines is to spread its system out to all points from Brandon.

The Grand Trunk Pacific's connecting line gives Brandon a fast service to Edmonton and intervening points, as well as providing the city with closer freight rates.

Brandon Municipal Railway owns and operates 10.31 miles of track, 10 motor cars, 10 trail cars, 1 snow sweeper, 2 direct current motors supplying total power of 807 K.W. 550-600 volts power purchased from The Brandon Electric Light Company, Limited.

### **BRANDON EXPERIMENTAL FARM**

The Experimental Farm is adjacent to the city on the north-west, the farm buildings being about 2½ miles from the business centre. The farm is 652 acres in extent, four hundred of which are in the valley of the Assiniboine River and the balance on the sloping sides and upland. There is thus a variety of soil and exposure.

The farm was established in 1888 by the government of Canada for the purpose of testing varieties of grain, fodder, crops, roots, vegetables, fruits, trees, etc., and of testing methods of handling the land best suited for Manitoba conditions. Feeding experiments are also conducted with cattle, swine, sheep, etc.

The farm is open for the general public to visit. About 10,000 on an average visit the farm annually, principally during midsummer when the crops are looking the best.
